The width of the product can be adjusted by changing the tool. Inverted production speed, Multi-rollers flattening the mixture evenly, Blowers keeping the mixture dry. |
| 6 | Packing Machine | Main Performance And Structure Features: |
| | | 1. Dual frequency conversion control, Bag length can be set and cut in one step, saving energy. |
| | | 2. Interface features easy and quick setting and operation. |
| | | 3. Self failure diagnosis, clear failure display. |
| | | 4. High sensitivity photoelectric eye color tracing, numerical input of cutting sealing position. |
| | | 5. Temperature independent PID control, more suitable for packaging different materials. |
| | | 6. Positioned stop function, without sticking knife or wasting film. |
| | | 7. Simple driving system, reliable working, convenient maintenance. |
| | | 8. All control is realized through software, easy for function adjusting and technical upgrade. |
| | | Food Application : cake, bread, biscuits, cookies, meat muffin, flaky pastry, moon cake, bag, noodles, beef jerky, egg roll, etc |
