

Welcome to the 2024 GULFOOD MANUFACTURING Exhibition: Discover Innovation in Food Production Lines

Introducción detallada :

The image is a promotional graphic for two food industry exhibitions. It is split into two main sections by a diagonal blue and red line. The left section is for the Gulfood Manufacturing exhibition, featuring its logo (a circular arrow icon) and the text 'GULFOOD MANUFACTURING'. Below this, it states 'BOOTH 1307' and '5-7 NOV. 2024'. A red location pin icon is next to 'DUBAI WORLD TRADE CENTRE'. At the bottom of this section, a red banner reads 'Shandong Loyal Industrial Co.,Ltd.'. The right section is for the 2024 SIAL InterFood exhibition, with the text '2024 SIAL INTER IN INDON' (partially visible). It specifies 'HALL B2, BOOTH J2' and '13-16 NOV. 2024'. A blue location pin icon is next to 'Jakarta International Expo, Kemayoran · Indonesia'. Below this, the SIAL InterFood logo is shown with the tagline 'INSPIRE FOOD BUSINESS'. A blue banner at the bottom of the entire graphic contains the text: 'When you confirmed the date to come. please call me by number +86 13256674591 +86 13176674591'.

Dear Food Industry Professionals,
Are you ready to explore the latest advancements in food manufacturing technology?
2024 GULFOOD MANUFACTURING Exhibition is just around the corner, and we cordially
invite you to visit our booth to witness the future of food production firsthand. This
prestigious exhibition, held between the 5th and 7th of November 2024, brings together
leading manufacturers, suppliers, and industry experts from around the globe. Don't miss
your chance to connect with us and discover how our cutting-edge solutions can transform
your food production processes.

Date: 5-7 November, 2024

Booth No.: Hall 9, Booth 1307

At our booth, you'll find a showcase of our most innovative and efficient food production lines, tailored to meet the diverse needs of the modern food industry. Here are some highlights you can expect to see:

Pet Biscuit Production Line:

Satisfy the growing demand for high-quality pet food with our state-of-the-art pet biscuit production line. Designed for maximum efficiency and flexibility, this line can produce a range of shapes, sizes, and textures to meet the preferences of pets and their owners. From raw material handling to final packaging, our production line ensures consistent quality and hygiene throughout the process.

Corn Flakes/Breakfast Cereals Process Line:

Kickstart your day with our advanced corn flakes and breakfast cereals process line. Our fully automated system guarantees precise temperature control, uniform cooking, and efficient drying, resulting in crispy and delicious breakfast cereals. Our process line is customizable to produce a variety of cereal types, catering to the diverse tastes of consumers worldwide.

Tortillas/Tortilla/Corn Chips Process Line:

Bring the taste of Mexico to your kitchen with our tortillas, tortilla chips, and corn chip process line. This versatile line can handle a wide range of raw materials, from fresh to pre-cooked dough, ensuring consistent texture and flavor in every batch. Our state-of-the-art machinery ensures high throughput and minimal waste, making it an ideal choice

small and large-scale production.

Nutrition Cereal And Grain Bar Process Line:

Nurture your body with our nutrition cereal and grain bar process line. Designed to cater to the growing demand for healthy snacks, this line offers precise formulation, mixing, and extrusion capabilities. Whether you're looking to produce energy bars, granola bars, or protein bars, our process line ensures a balanced nutritional profile and delicious taste in every bite.

Don't miss the opportunity to experience these and other innovative food production solutions at our booth. Our team of experts is eager to answer your questions, provide demonstrations, and discuss how our solutions can benefit your business.

For more information or to schedule a meeting, please contact us at +86 131766745. We look forward to welcoming you to the 2024 GULFOOD MANUFACTURING Exhibition and sharing the future of food production with you!
