Products and services

Products And Services	
1.	According to the drying needs of customers and the size of the site, we can design solutions for customers free of charge.
2.	On-site inspection at the customer's location to evaluate the site and applicability
3.	The produced equipment should be tested in the factory first, and the safety of the equipment sho be debugged
4.	Go to the customer's location to install the equipment, carry out the drying test, and set the drying interval.
5.	One-year warranty for equipment, lifetime maintenance
