

Professional Instant Noodles Making Machine With Custom Design Service

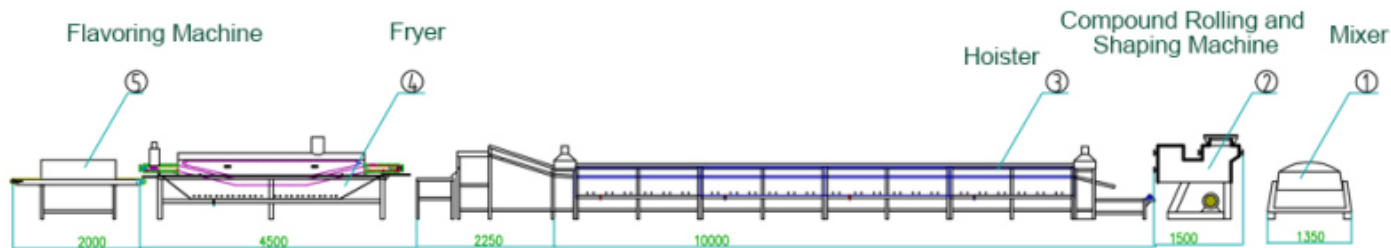

Detail Introduction :

Introduction of Instant Noodles Making Machine:

Instant Noodles, also known as fast food noodles, instant noodles, cup noodles, fast cooked noodles and instant noodles, are generally called bowl noodles in the south and doll noodles in Hong Kong. It is a kind of noodle food that can be cooked in a short time with hot water. Broadly speaking, it refers to a kind of noodle food that can be cooked and eaten with hot water within a short period of time, with related dishes such as homemade noodles, noodle salad, etc.; narrowly speaking, instant noodles usually refer to the finished products sold consisting of noodle cakes, seasoning packets and oil packets, mostly in bags and cups or bowls on the market. Instant noodles are ready-to-eat convenience foods that can be eaten in a short time (usually within 3 minutes) by steaming and frying the noodles that are shredded out to a fixed shape (usually square or round), brewing them with boiling water before consumption, dissolving the seasoning, and heating the noodles to brew away.

The whole Instant Noodles production line? Automatic Material Supplying? Alkali Water Mixing Tank? Alkali Water Measuring Device? Flour Mixer? Round Disk Aging Machine? Rolling & Shaping Machine? Steaming Machine? Noodle Cutting And Dividing Machine? Frying Machine? Arranging Machine? Cooling Machine? Conveying Machine? Packaging Machine.

Details of the production line:

Production capacity	1000-3200kg/h
Electricity supply	Customised according to your local electricity situation.
Machine details	1.Stainless steel:201, 304, 316, on request. 2.Electrical components can be ABB, Delta, Fuji, Siemens, famous brands.
Certificates	CE,GOST,TUV,BV,SGS

Features of the Instant Noodles processing line?

- 1.Productivity:automated system for controlled and stable production on a continuous basis, easy and quick product change, automatic start-up, simple cleaning and maintenance procedures.
- 2.Economical: low investment, quick results.
- 3.Environmental protection: moderate output and energy saving.
- 4.Intelligent control system: PLC control of production to ensure optimum process parameters for each recipe.
- 5.Automatic lubrication system can reduce power consumption and prolong service life.

Parameters of the Instant Noodles Production Line?

Model	Installed Capacity (kw)	Capacity (kg/h)	Dimension (m)
LYN-11 3Y	42	1000-1200	60*6*4.5
LYN-11 6Y	56	1200-1400	76*8*4.5
LYN-11 8Y	68	1300-1500	76*8*4.5
LYN-11 10Y	80	1400-1600	95*8*5
LYN-11 12Y	83	1800-2000	95*8*5
LYN-11 16Y	106	2000-2400	110*10*5.5
LYN-11 18Y	114	2400-2600	110*10*5.5
LYN-11 20Y	125	2600-2800	120*12*5.5
LYN-11 25Y	140	3000-3200	120*12*5.5
