

Smart Stainless Steel Energy Bar Machine , Automated Snack Bar Production Line

Especificações :

Preço	Contact us
Marca	LOYAL
Local de origem	China
Quantidade Min.Order	1
Condições de pagamento	T/T,L/C,D/P
Capacidade de fornecimento	100
Detalhe da Entrega	10-25 working days.
Detalhes da embalagem	Wooden case or wooden pellets depended on clients' require

Introdução detalhada :

Cereal bars are made from oats, rice, nuts, dried fruits, etc. as the main raw materials. Because of its delicious taste, crisp taste, rich nutrition, and convenient portability, it is very popular in the market. It has also become the main meal replacement food for fitness people. How to make cereal bars easily?

The snack bar production line

The **snack bar production line** adopts PLC operating system and advanced mechanical structure to realize fully automated production-continuous feeding, automatic flattening, automatic cutting, and cross-cutting. Compared with traditional hand-made methods, it reduces a lot of production costs and improves production efficiency.

By changing the raw material formula, the oatmeal machine can produce many different types of products, such as oatmeal bars, granola bars, peanut candy bars, puffed rice bars, nougat bars, etc. The shapes of cereal bars are round, square, semi-circular, triangular and so on.

How to produce snack bars on a large scale?

Cereal bar manufacturing process	
Raw materials	Black rice, sugar, nuts, corn, barley, wheat, dried fruit, raspberries, blueberries, passion fruit, sugar.
Finished product	Cereal bars, granola bars, peanut candy bars, puffed rice bars.

Cereal bar manufacturing process

Machine flow chart of snack bar production line process:

1. extrusion granulator 2. sugar cooker 3. mixing drum 4. hoist 5. automatic cutting machine 6. cooling conveyor belt 7. packing machine

No.	name	Features
1	Grain extruder	The grain puffing machine is specially suitable for the puffing and puffing of corn, barley, wheat, beans, corn, etc.
2	Sugar heating machine	Melt and mix sugar or other additives (salt, cocoa, milk, etc.).
3	Mixer	Mix the sugar and other materials evenly together for subsequent cutting.
4	Cereal bar cutting machine and cooling conveyor	Sprinkle the mixture on the conveyor belt, cool the sprinkled mixture and cut to required size, cool the cut bar and transport it for packaging.
5	Pillow packaging machinery	Suitable for automatic packaging of candies, breads, hamburgers, puffed snacks, biscuits, etc.

snack bar production line

Advantages of snack bar production line:

Advantages of snack bar production line		
project	The second generation energy bar making machine	The first generation of machine
Material	304 stainless steel material.	201 stainless steel
Control System	It adopts advanced computer touch screen and PLC control.	Buttons
automatic	Fully automatic, continuous feeding, flattening, dicing and conveying.	Semi-automatic
Finished product	Cereal bar snacks, peanut brittle of different sizes.	Single size finished ro

Parameters of snack bar production line

Parameters of snack bar production line

NO.	VOL	SIZE(L*W*H)	CAPACITY	Machine material
LY-1	380	15×15×60mm	300~500kg/h	Stainless steel
LY-2	380	15×15×60mm	500~800kg/h	Stainless steel
Machine material	Stainless steel			
Features of cereal bar cutting machine	Sprinkle the mixture on the conveyor belt, cool the sprinkled mixture, cut it into the required size, cool the cut bar, and transport it to the packaging.

Why choose us?

Why choose us?

1	We pay more attention on each details of the equipment.
2	We are a important leading enterprise in Shandong, providing employment opportunities for local residents, helping the poor and helping farmer.
3	One year warranty for the machines.
4	Overseas installation and train the first-line operators.
5	For any questions, professional technicians will solve for you timely.
6	Training workers for the production.

7 Provide basic formula for free.

FAQ:

Q:What kind of population is suitable for the nutrition bar production line?

A: We have production lines with different output, which are suitable for the needs of various factories, large, medium and small.

Q:How much space does the nutrition bar production line need?

A:About 26-30m

Q:How much workshop is needed for this nutrition bar production line?

A:3-4 workers

Q: Are you trading company or manufacturer ?

A: We are factory.

Q: How long is your delivery time?

A: Generally it is 10 days if the goods are in stock. or it is 30-35 days if the goods are not in stock, it is according to quantity.

Customer Case Of Automatic Cereal bar manufacturing process In 2021

Customer Case Of Automatic Cereal bar manufacturing process In 2021	
1	1000kg/h Cereal bar manufacturing process For Sale Senegal
2	Cereal bar manufacturing process For Sale Nigeria
3	Most Popular Industrial Cereal bar manufacturing process For Sale Burkina Faso
4	800kg/h Cereal bar manufacturing process For Sale Botswana
5	High Quality Cereal bar manufacturing process For Sale To America

Customer Case Of Automatic Cereal bar manufacturing process At Discount Prices In 2021	
1	800kg/h Cereal bar manufacturing process For Sale Mozambique
2	800-1000kg/H Cereal bar manufacturing process For Sale Austria
3	1T Cereal bar manufacturing process For Sale Moldova
4	500kg/h Industrial Cereal bar manufacturing process For Sale Ukraine
5	600kg/H Automatic Cereal bar manufacturing process For Sale Singapore

Case Customer With Automatic Cereal bar manufacturing process Technology In 2021	
1	Industrial Automatic Cereal bar manufacturing process For Sale Puerto Rico
2	High Efficiency Automatic Cereal bar manufacturing process For Sale Dominica
3	800kg/h Automatic Cereal bar manufacturing process Cost To Bolivia
4	New Design Automatic Cereal bar manufacturing process For Sale For Sale In Senegal
5	Automatic Cereal bar manufacturing process Price In Nigeria

Packaging & Shipping:

Package: wooden cases for sea transportation

Delivery time: 30 working days after receiving the deposit

Installation : engineers available for installation and training overseas

Guarantee : 12 months after it is sent out
