Introdução detalhada :

The hot sales industry banana chips frying machine continuous fryer machine is manufactured to make crispy fried chips from natural bananas, banana potatoes, etc. The production process of this commercial banana chip line mainly includes washing, peeling, slicing, blanching, dehydrating, frying, deoiling, seasoning, and packaging. And according to different customer needs, the banana chips making machine can be customized into a semi-automatic banana chip production line and a fully automatic banana chip production line, the output is between 50kg/h and 1000kg/h.

What is Banana Chips Frying Machine?

1.The industry banana chips frying machine consists of the frying system, automatic elevating system, automatic de-oil system, automatic conveying and cooling system and can finish fry,mix, de-oil and convey automatically. Hot sales industry banana chips frying machine continuous fryer machine can use electricity,gas or diesel as heating source.

2. Compact structure of fryer, elevate, de-oil, convey, cooling function.

3. Adopt PLC control achieves totally automatic working,imported gas, diesel burner guarantee best power.

4. Consumption with higher efficiency.

5. Manuals and automatic control way, operation flexible.

What Is Advantage Of Banana Chips Frying Machine?

The Advantage Of Banana Chips Frying Machine	
1	Hot sales industry banana chips frying machine continuous fryer machine not only keep the fryi product quality, prolong shelf life, but also bring higher dosage value to the product.
2	The advanced mechanical configuration and control always maintains a good working condition the output, but also makes the product quality stable, and the color, aroma and taste are unifie
3	The machine automatically filters, without frequent oil changes, which can greatly extend the se consumed by the product during frying is equivalent to the oil absorbed by the product, saving f
