Introdução detalhada :

Induction Of Good Quality 300kg/h Electric Economode Batch Fryer For Sale

The rectangular batch fryer can be widely used to fry kinds of food, like potato chips, shrimp sticks, rice crispy, nuts, puff snacks, etc. Rectangular batch fryer includes frying, conveying, and de-oiling with accurately control. Simultaneous conveying and frying makes continuous production in high efficiency and with less labor. High efficient electrical heating way and optimized structure of frying body can use less oil to realize high oil circulation. Separate frying body and conveyor can be cleaned conveniently. Net belt conveyors make even feeding and discharging. Diesel, gas, and coal can be the alternative heating fuel for this rectangular batch fryer. Reasonable design of structure, high automation, simple operation, low consumption, low waste, and central control are all characteristics of this continuous frying line.
