High Performance Pasta Production Line Macaroni Production Machine

Especificações :

Preço	Contact us
Marca	LOYAL
Local de origem	China
Quantidade Min.Order	1
Condições de pagamento	T/T,L/C,D/P
Capacidade de fornecimento	1000
Detalhe da Entrega	10-25 working days.
Detalhes da embalagem	Wooden case or wooden pellets depended on clients' require

Introdução detalhada :

Introduction Of Macaroni Production Machine:

The macaroni extrusion line can produce macaroni in various shapes and sizes. Through different molds, it can produce snack foods with a variety of patterns, such as screws, hollow rods, shells, numbers, wheels, flowers, etc. It is mainly made of wheat flour, making the product tough and chewy. The whole Pasta Production Line is automatic and continuous.

The macaroni making machine uses advanced Vacuum extrusion technology to produce the popular macaroni. It can easily change the mold to produce macaroni of different shapes, such as tube, shell, spiral, etc.

The fully automatic **industrial macaroni production machine** is developed on the basis of absorbing foreign advanced technology, and its technical quality indicators have reached the international advanced level of similar equipment. The Pasta Production Line ranges from raw material ingredients, mixing raw materials, conveying, extrusion, and baking to a complete product. Fully automatic **industrial macaroni production machine** can produce all kinds of pasta and macaroni food.

More About The Macaroni Production Machine:

More About The Macaroni Production Machine:	
Products	Macaroni, like shell, spiral, square tube, circle tube, and so on.
Equipment list	Raw material mixing system---Vacuum Extrusion system----Drying system---Cooling system---Packing system

Voltage	In China, it’s Three phases: 380V/50Hz, Single phase: 220V/50Hz, we can make it according to customers' Local voltage according to different countries
Machines Materials	All the machines are made by stainless steel
Capacity	100kg/h, 200kg/h, and so on.

Production Line Flow Chart Of Macaroni Production Machine:

Mixer--Screw Conveyor -- Vacuum Extruder -- Cutter -- Cooling Machine -- Hot Air Drying machine -- Cooling machine -- Packing system

We can design the Macaroni Machine layout according to the dimension of customers' factory.
The automatic Pasta Production Line is suitable for the mixing of raw materials to the final packaging for sale. It has simple operation, moderate output, energy saving and high efficiency, small floor space, low investment, and quick results. The macaroni production machine is especially suitable for start-up companies.

Technical Parameters Of Macaroni Making Machine:

Technical Parameters Of Macaroni Making Machine:				
Model	Installed power	Real power	Output	Dimension
LY-100	54kw	43kw	100kg/h	21000x1200x2200mm
LY-200	60kw	48kw	200kg/h	23000x1500x2200mm

Machine Detailed Introduction Of Pasta Production Line?

Machine Detailed Introduction Of Pasta Production Line	
Machine	Function
Mixer	Mixer makes the raw material which adding water and liquid chemical additive fully mixer equally. The machine mixers the flour and prepares them ready to be used in the next step.
Screw conveyor	Screw conveyor can not only convey on the level but also by any angel these materials can be conveyed in the stainless steel roller without leaking, dust pollution.

Vacuum extruder	Extruded the material, make the material into a fixed shape, with a same extruder, you can produce different shapes of food by changing different moulds. Our vacuum extruder can produce chewy and shiny pasta to meet customer needs.
Cutting machine	Cut off the pasta to the different length.
Hot air dryer	It is used for drying. The net belt running speed can be controlled to change the food drying time in the dryer. The temperature also can be controlled.

Main Feature Of Macaroni Production Machine:

Main Feature Of Macaroni Production Machine	
1	The motor and the gear box are directly driven to reduce energy consumption
2	The feeding, main driving device, and rotary cutting device all adopt frequency converter to adjust the speed, the transmission is stronger, the operation is stable, and the consumption is low.
3	The screws are made of durable alloy steel. Segmented assembly screws are used in a wider variety of materials and products.
4	Automatic lubrication system reduces energy consumption and prolongs service life.
5	Our extruders produced by European and American technology all use vacuum technology.
6	Hanging mold (mold) and tool holder and bearing tool adjustment system can adjust the knife accurately and quickly.
7	The pasta production line has Low production cost and it can make high profit.
8	The material can be reorganized and formed into different shapes, such as tube, spiral, shell, etc.

Macaroni Making Machine Sales Market As Follow:
Our company has already exported countries:

Macaroni Making Machine Sales Market As Follow:

Asia market	Thailand, Indonesia, East Timor, South Korea, India, Bangladesh, Iran, Saudi Arabia, Turkey, Iraq, Israel, Kazakhstan, Tajikistan, Uzbekistan, Turkmenistan
European market	Russia, Bulgaria, Ukraine, Britain, France, Germany, Spain, Portugal
African market	Nigeria, Benin, Algeria, Egypt, Ethiopia, Ghana, Namibia, Uganda, Zimbabwe
North and South America market	Canada, Brazil, Bolivia, Mexico, Guatemala, Belize, El Salvador, Honduras, Panama, Bahamas, Cuba, Jamaica

Packing And Shipping Of The Pasta Production Line:

Packing And Shipping Of The Pasta Production Line:

Packing And Shipping Of The Pasta Production Line:

FAQ:

Q. How much does the spaghetti production line occupies?

A. Usually 26-30 meters.

Q. How many workers does the pasta production line need?

A. 2-4 workers

Q. What types of products can the macaroni production machine do?

A. All shells, spirals, Square tube, round tube, and wave shapes

Q. For whom is the pasta machine suitable for purchase?

A. Suitable for all home production, small factories, large factories and other manufacturers

Which Market Did The Loyal Spaghetti Line Sold?

Customer Case Of Spaghetti Pasta Production Line At 2021	
1	Old thailand Customer of 500kg/ h Automatic New Type Spaghetti Pasta Production Line in new
2	1T/H Tough Spaghetti Pasta Production Line For Sale in Puerto Rico
3	1T/H Crisp Spaghetti Production Line For Sale in Bolivia

Dealed Customer Have Technology Of Spaghetti Pasta Production Line At 2021	
1	Senegal 1T/H Industrial Spaghetti Production Line
2	1T/H Spaghetti Machine for Sale in Côte d'Ivoire
3	1T/H Industrial Spaghetti Equipment Sold in Russia

Dealed Customer Have Formula Of Automatic Spaghetti Process Line At 2021	
1	1000kg/h Industrial Automatic Spaghetti Machine For Sale In Senegal
2	Mozambique 1t/h Industrial Spaghetti Manufacturing Line
3	Bangladesh 2t/h Industrial Spaghetti Making Machine

2021 Automatic Spaghetti Process Line customer with factory	
1	Bangladesh 2t/h Industrial Spaghetti Making Machine
2	800kg/h Industrial Spaghetti Production Line For Sale In Nigeria
3	Algerian Spaghetti 300kg/h Production Line
